Less red tape for business

ANOTHER INVESTSA One Stop Shop has been launched to provide investors with services to fast-track projects and reduce red tape.

The KwaZulu-Natal InvestSA One Stop Shop is expected to create much-needed jobs in the province.

President Jacob Zuma launched the InvestSA One Stop Shop to help unlock opportunities for growth and investment in KwaZulu-Natal. InvestSA's One Stop Shops – which were also rolled out in Gauteng and the Western Cape earlier this year – house government entities like SARS, Home Affairs, Environmental Affairs, Eskom and the Companies and Intellectual Properties Commission under one roof to reduce red tape, decrease costs and make business easier.

The primary aim of the provincial One Stop Shops is:

- to co-ordinate and incorporate special economic zones,
- provincial investment agencies,
- local authorities and government departments involved in regulation, registration, permits and licensing matters.

Chairperson of the KZN Business Chambers Council, Dominic Collett, said that the One Stop Shop provides hope for prosperity and job creation through the injection of investment from outside the province.

"This will strengthen the province's value proposition to investors as a preferred destination for investment.

"It will also attract new markets to KZN through creating a conducive environment for trade and investment, making the

AN APP HAS been designed to assist in the fight against crime in Gauteng.

The Gauteng Department of Community Safety has partnered with non-profit organisation Happimo to pilot its safety app Namola, which aims to reduce the amount of time it takes law enforcement to attend to emergencies.

Namola is designed to improve alert and dispatch times to under one minute.

Namola, which is free to download from app stores, enables users to easily share their GPS coordinates, name and nature of the emergency.

Namola improves efficiency and pinpoints the user's exact location, making it easy for emergency services to find them.

Community Safety MEC Sizakele Nkosi-Malobane said the pilot project that's being run in collaboration with Gauteng Traffic Police, will initially see 20 vehicles fitted with and using the system.

"This innovation should be applauded because for some time there has been an outcry from some community members about the delay in response time to crime scenes and emergency incidents. I am excited that this will now be a thing of the past," she said.

"Gauteng Traffic Police has already installed the application in our fleet, test runs have been conducted, a control room has been set up at our head office and it's fully functional." **V**

Metro police are here for you

Recent reports in the media about metro police brutality have highlighted the need to put a spotlight on the important role this department plays in making sure that there is safety, security and order in the cities

Is the Metro Police Service part of the South African Police Service?

No. The Metro Police Service is a department within a municipality.The SAPS and the metro police often work together in the fight against crime.

How do I identify the Metro Police?

The metro police are easily identified. They have a distinctive blue uniform with a blue and white checkered band on their hats. Their vehicles are also clearly marked with the same blue and white checkered band on the sides.

Besides law enforcement, what other work do metro police officers do?

Metro police direct traffic in the event of an accident, breakdown, spillage or when lights are out of order. They also enforce by-laws, for example, checking for illegal traders and over-loaded vehicles. They enforce public transport legislation and assist with vehicle testing.

Metro police officers are there to ensure there is law and order in the cities in which we live. It's up to all of us to work with them to ensure that they are able to perform their duties.

What work do metro police do?

The metro policemen do all the usual work that you would expect from a police service. They enforce the bylaws and attend to any criminal or traffic offences. However they do not investigate crimes nor have police cells to lock up suspects. Once an arrest is made, the suspect is handed over to the SAPS for follow-up investigation.

How quickly will the metro police respond to a call?

In many cases metro police are constantly patrolling the area in a number of ways. There is usually a bicycle section, a horse unit, motorcycles and a wide variety of other vehicles. Metro police also patrol on foot.

What sort of training do the new recruits go on?

Municipalities ensure that recruits go on training to prepare them for their work. Training involves the city's bylaws, traffic regulations, and crime prevention legislation, self-defence, among others.

Metro Police officers undergo ongoing training to remain well informed of changes in legislation, new methods of crime prevention, etc. V
