Budgeting for a brighter future

FINANCE MINISTER Tito Mboweni has called on the nation to embrace President Cyril Ramaphosa's State of the Nation Address task list, so that we can become a better South Africa.

- **ECONOMIC GROWTH**
- **TAX**
- **EXPENDITURE**
- **DEBT**
- **SOEs**
- **WAGE BILL**

Finance Minister Tito Mboweni delivers the Budget Speech.

During his recent Budget Speech in Parliament, Minister Mboweni assured South Africans that the country is on a bold new path and spoke about what government plans to do for the nation and its

citizens.

The Minister said that the Budget focuses on six areas. These include achieving a higher rate of economic growth; increasing tax collection; reasonable, affordable expenditure; stabilising and reducing debt; re-configuring state-owned enterprises (SOEs); and managing the public sector wage bill.

"Taxes raised in wealthier areas fund poorer provinces and municipalities. In this budget, 47.9 percent of nationally-raised funds have been allocated to national government, 43 percent to provinces and 9.1 percent to local government. Pro-poor spending continues to grow in real terms," he said.
