## President's visit brings hope

President Jacob Zuma spends time with residents of Kwaggafontein in Mpumalanga during a recent visit to the area.

### Chris Bathembu

President Jacob Zuma's recent visit to Kwaggafontein in Mpumalanga has left residents hopeful that the visit will change their lives for the better.

The small Mpumalanga town, located in the Thembisile Hani Local Municipality in the Nkangala District, is the latest to be visited by President Zuma as part of the recent Siyahlola Presidential Monitoring tour.

Siyahlola is a programme that allows the President to interact directly with communities and monitor government's performance.

Speaking to *Vuk'uzenzele*, locals were specific about the issues they want to discuss with the President. Top of their list was the scarcity

of water followed by unemployment and issues related to housing.

"The Siyahlola programme is designed to allow the President to come and see for himself what is happening on the ground. My visit here follows

**"Our visit today is a step to promote the performance of municipalities. We are happy to visit a municipality that had faced enormous problems which is now improving."**

an earlier visit I paid to Marabastad in Pretoria where people pleaded with me that I come and visit Kwaggafontein," President Zuma said.

He told the gathering of more than 1 000 people that local government is a very important sphere of government as it is the one closest to people.

"Our visit today is a step to promote the performance of municipalities. We are happy to visit a municipality that had faced enormous problems which is now improving," he said.

President Zuma also con-

gratulated the provincial government for eradicating the bucket system by 98 percent over the past year. He also indicated that the Department of Transport was to rehabilitate the notoriously dangerous Moloto Road.

"A decision has been taken and construction will begin in September and the work

will be in stages with the first critical 25 kilometres set to receive priority."

In his response to some of the issues raised by community members, President Zuma said government had taken note of the high unemployment rate in the area and that it had been trying to mitigate the problem through the Community Work Programme (CPW). CPW provides work opportunities for more than 1 000 people in the area twice a week.

To deal with water shortages in Kwaggafontein, President Zuma said, among other interventions, a new water reservoir and pipeline would be built in nearby KwaMhlanga.

The President also handed over keys to refurbished houses to several beneficiaries in the local township. ▣

# Nkuri village gets a new library

Albert Pule

**N**orah Ngoveni of Nkuri village in Giyani, Limpopo, dreamt of having a community library.

She wrote to Deputy President Cyril Ramaphosa to request a library to meet her community's need for easier access to information and resources.

In response the Department of Arts and Culture handed over a modular library (in a prefabricated building) to the village of Nkuri at the start of June.

Students and community members no longer have to travel 21 kilometres to get

information for their studies, assignments and research.

The modular library is a short-term solution. The construction of a brick and mortar library will start soon.

Deputy Minister of Arts and Culture, Rejoice Mabudafhasi, said the library would serve schools and the community of Nkuri and surrounding villages.

"This modular library belongs to you. Use it, become literate and read together as families. Let us make reading part of our daily lives and let every one of us share a book with a colleague, family, friends and neighbours as a way of enhancing social cohesion,"

she said during the handover ceremony.

The Deputy Minister advised parents to read to their children daily from an early age.

"The heritage you will pass on to the children by reading to them will last forever."

## Grant for libraries

Government has shown its commitment to promoting a culture of reading, through the Community Library Conditional Grant.

The grant aims to better the library sector by improving infrastructure, purchasing library materials, giving free access to the Internet, providing services to the visually

impaired and establishing toy libraries, among others.

Since the grant's inception, 81 new libraries have been built, 343 libraries upgraded and more than 1 400 jobs have been created.

Deputy Minister Mabudafhasi said her department wanted the grant to make libraries the information hubs of each community.

"Our libraries have free access to Internet and updated library materials. This brings equality by making it possible for a library user in a rural area to access the same information as a user in an urban area."

In 2016/17, the department will build 23 new libraries
