# Early childhood education is important

Noluthando Motswai

**E**arly Childhood Development (ECD) centres are the pillars of education and a good investment for unlocking a child's potential.

This is according to the CEO of the National Development Agency (NDA) Thamo Mzombe.

"Understanding the investment on a child and unlocking the potential at a very early stage is important. As the NDA, we look at ECDs holistically in terms of development of a child from the mind to physical. This is an asset and if well nurtured at an early stage will yield great potential for our country," says Mzombe.

She adds that during the first 1 000 days of a child's life their mind is capable of quickly absorbing important information.

Getting access to quality edu-

cation at this stage is essential in terms of ECD which advocates that children who are exposed to ECD efforts must have access to quality food and an environment which allows potential growth.

"If we get the programmes of the ECDs right we would not suffer in entrepreneurial challenges, producing scientist because the child's potential and resilience is built at this level," said Mzombe.

She adds that in order for children to flourish academically nutrition and a balanced diet are important.

## One ECD centre, one food garden

The NDA promotes the idea of "One ECD centre, one food garden." Food gardens provide fresh vegetables to school feeding schemes at community-based ECD facilities, home-based centres and rural communities.

The NDA also provides skills development and education in the benefits of good nutrition.

The NDA focuses mostly on ECDs in rural areas, informal settlements and farm areas where poverty levels are very high and parents have no means or access to structured ECD-based programmes.

Mzobe adds that her organisation focuses on empowering the management of an ECD, particularly in the areas of governance, financial management, fundraising, human resource management, report-writing and how to register with the provincial departments of social development.

"This assists centres to ... comply with the norms and standards of the Department of Social Development," says Mzombe.

ECD centre infrastructure upgrades are also important element to ensure that learning

happens in a safe environment.

## Training for ECD Staff

Through the NDA ECD principals, supervisors, practitioners, cooks and governing body members are appropriately trained and skilled to benefit the centre's programmes for young children.

Mzobe says ECD educators are also guided by a curriculum with standards to be achieved.

"Their curriculum covers most of grade R. We have our NPO-capacitated trainers that develop curriculum," concludes Mzombe. □

## NEWS IN BRIEF

### Deputy President opens Eastern Cape HIV/AIDS Centre

Deputy President Cyril Ramaphosa has officially opened the Vuyo Mbali Empilisweni HIV/AIDS and Orphans Centre in Ndevana Eastern Cape.

The centre is a community initiative which started operations in 1999 with the help of the late SABC TV presenter Vuyo Mbali. The centre – whose main focus is on HIV and Aids orphans – also works with caregivers of people who are on antiretroviral therapy and Tuberculosis treatment. The facility has been commissioned by the Department of Health to trace treatment defaulters in the area. □

## KZN businesswomen get empowered

**Hlengiwe Ngobese**

**A mentorship programme run by Ithala Development Finance Corporation is helping women in rural and township areas realise their dreams of becoming entrepreneurs.**

The programme is designed to help micro-level Small, Medium and Micro Enterprises (SMMEs) grow and sustain their businesses.

The initiative is part of phase three of Ithala's Imbokodo Iyazenzela programme, which is a pillar of support to women entrepreneurs in KwaZulu-Natal (KZN) who require access to finance and resources to grow

their enterprises.

Imbokodo Iyazenzela was launched in 2015 and has reached over 3 000 women in 16 towns across KZN to date.

Cutting Edge Business Solutions is formally and regularly mentoring and coaching the top 20 participants in the 2017 programme to help them improve their businesses and make them sustainable. The mentors' role is to help maximise mentees' business revenues by providing them with effective marketing ideas and financial literacy lessons, improving their administrative skills and helping them to be compliant with the legal requirements for running a business.

“After traversing KZN to identify the bottlenecks preventing aspiring business

**We plan to continue changing the lives of businesswomen through mentorship and coaching projects.”**

women from reaching their full potential in phase one of Imbokodo and thereafter putting them in touch with our esteemed partners to overcome their challenges in phase two, the finalists have experienced tangible business growth,”

said Sitandiwe Dimba, Ithala's Corporate Social Investment Coordinator.

The four broad categories of hindrances identified during the outreach were access to markets, finance, business support, and marketing and sales.

Mbali Shinga (44) owner of Ubuhe Bozalo Trading says she has benefited from the programme.

“My mentor, Zandile Nkala, helped immensely to brand and market my business. I have taken it upon myself to start mentoring members of my community, especially the youth, by conducting ‘entrepreneurship talks’ to motivate them to start their own busi-

nesses,” she said.

Thulani Mazibuko, the managing director of Cutting Edge Business Solutions, said Shinga, has stood out as a mentee and shown significant progress through the mentorship programme.

“Shinga's business currently employs 29 people in permanent positions. Her company has its own logo, letterhead and a website that will soon be accessible.

“We plan to continue changing the lives of businesswomen through mentorship and coaching projects and wish the mentees all the success in their business endeavours,” he said. V
