Credit Amendment Bill offers relief

DEBTORS WHO OWE under R50 000 and meet certain criteria will benefit from the passing of the Draft Credit Amendment Bill.

If you are one of the approximately 10 million South Africans struggling with debt issues, help could be on the way.

The Draft National Credit Amendment Bill was submitted for public comment at the end of 2017.

The Draft Bill outlines government's proposed debt interventions, with the aim of providing relief to citizens who have no effective or efficient options to get themselves out of debt.

The development of the Draft Bill was based on the dire need to address the issue of debt in South Africa.

There was extensive research into international debt relief initiatives and the viability of such a move in South Africa was studied.

Members of the public were invited to submit public comment on the Bill until 15 January 2018, with public hearings held on 6 and 7 February.

If Parliament passes the Draft Bill the relevant amendments will be made to the National Credit Act, and South Africans

who meet certain criteria will be able to apply for debt relief.

How will it work?

- A person applying for debt relief has to be a South African citizen under a credit agreement.
- The total owed debt

should not exceed R50 000.

- The applicant should receive no income or an income that, in the six months before making the application, was not more than R7 500 per month.
- The applicant should have no assets that can be converted into cash (excluding certain necessities).
- Certain credit agreements, including developmental credit agreements, are excluded.
- Consumers who are under debt review, or against whom legal action has been taken for not settling their debt, do not qualify for debt intervention.
- Only one application can be made per applicant.

If the National Credit Regu-

lator rules that the applicant requires assistance, the credit agreement could be suspended for 12 months, depending on the applicant's financial circumstances.

During the public hearings numerous stakeholders, ranging from banks to debt counsellors, accounting firms, labour unions and government departments, gave presentations. Following these hearings, it has been recommended that the Draft Bill be referred in order to remove any constitutional uncertainties. **V**

Waste becomes wages

A SUCCESSFUL government waste management programme has created temporary employment for 190 youth whilst ensuring a litter-free environment.

Bokone Bophirima's Department of Local Government and Human Settlements has invested over R2.5 million in waste management, in at least 10 of its municipalities, through its Youth in Waste Management Programme.

The programme created temporary employment for 190 youth in the North West's Lekwa Teemane, Ditsobotla, Ratlou, Greater Taung, Kgetlengrivier, Mamusa, Moretele, Tswaing, Maquassi Hills and Ramotshere Moiloa local municipalities from July 2017 to January 2018.

The programme assisted these municipalities with waste removal and the operation and maintenance of

waste and illegal dumping sites, and generated awareness around waste management, including recycling, and waste removal, from schools, sidewalks, parks and central business districts.

The youth was encouraged to take part in waste management ventures and partnerships were forged with stakeholders for implementation.

Municipalities were responsible for recruiting participants, through their ward councillors, and they targeted unemployed youth, the disabled, child-headed households and the poor. Participants received a monthly stipend of R1 800 and a certificate of participation.

Modise Ngazire (28) from Setlagole in Ratlou said the programme gave him necessary work exposure and ensured that he could put food on the table every day and buy necessities for his two children.

Ngazire, who is an orphan, matriculated in 2008. He was selected from Ratlou municipality's database of unemployed youth to participate in the programme.

"I am very grateful for the opportunity that was presented to me, at a time when I desperately needed it, and I wish that the programme could run in the next financial year so that other unemployed young people can have the same opportunity and gain the experience that I did," he said. ▶
