

NATIONAL FILM AND VIDEO FOUNDATION

Individual people, companies and organisations can apply for funding in the following categories:

- education and training bursaries
- development funding
- production funding
- marketing and distribution funding.

Priority is given to projects that

- are of national importance;
- contain local information;
- will empower or train people;
- are creative and imaginative;
- strive to stand on its own and grow.

INVESTING IN CULTURE PROGRAMME

The programme aims to help people to get skills and to make it easier for them to get into markets where they can sell their goods. This is a way to help rural development, job creation and renewal in cities.

Projects are started jointly with provincial and local governments, as well as government and non-government organisations.

The programme funds:

- raw materials (e.g. beads)
- skills training
- establishment of new businesses, or expansion of existing businesses.
